ROACH PREPARATION INSTRUCTIONS

KITCHEN:

____ • Empty ***ALL*** cabinets and drawers including: **FOOD, DISHES, GLASSWARE, SILVERWARE, AND PANS**. Place items in the middle of a room and cover with sheets or plastic drop cloths.

____ • Seal ***ALL*** food containers and remove food and other items from counter areas.

____ • CLEAN BEHIND STOVE AND REFRIGERATOR AREAS, leaving access for spraying.

____ • CLEAN ALL GREASE AND CRUMBS FROM DRAWERS, COUNTER TOPS, CABINETS, AND STOVE AREA.

____ • EMPTY AND WASH OUT ***ALL*** GARBAGE CANS AND WAST BASKETS.

BATHROOMS:

____ • Empty ***ALL*** cabinets, removing towels and toiletries. Place in another room and cover with sheets or drop cloths.

____ • Wipe down drawers, cabinets, and counter tops.

____ • Remove pets. Turn off aquarium air pumps and cover tanks and pumps with plastic wrap. Pump can be restarted about 3 hours after treatment.

____ • If roaches have been seen, or physical evidence has been found in any other room or area of the home, clear the baseboard areas and move the furniture away from the walls.

____ • Treatment usually takes from 10 minutes to 1 hour to complete, depending on the size of the area to be treated. **PLEASE, for your safety, allow a minimum of 4 HOURS before re-entering the area. Upon re-entering, open all windows and doors to ventilate the rooms as long as necessary - usually 15 minutes.**

____ • If preparation instructions are not followed, it will affect our ability to gain control of problem.

_____ • Please do not mop or vacuum 24 hours after treatment.

REMEMBER, PREPARATION IS THE BEST METHOD TO PREVENT RE-INFESTATION
